The Crossroads Project: Rising Tide

The Moto Mayhem Racing series was created with the sole intention of bringing an affordable, family-orientated “Enduro-X” style racing series to the community. The underlying mission is to demonstrate and instill the values of community, comradery, leadership, and sportsmanship in our youth. To help children become caring and respectful riders and racers. It is our belief that when a child is shown how a caring, community-driven group of people interacts with one another, they are more likely to become a productive part of those communities.

The advantages of the Arena Enduro-X is that it allows the spectators to be completely involved in the action and able to view every jump, obstacle and corner; unlike regular enduro racing where spectators may only see sections of the trails and racers during the event. Not only is this an advantage for spectators but it allows parents to play an active role on the ground during their children’s races.

Moto Mayhem has supported and encouraged youth to participate in every aspect possible including creation of the track, building the course, flagging, registration, handing out awards, and financial support in the way of the “FUTURE MAYHEM” Program. The Future Mayhem program is an opportunity for children to be part of the Moto Mayhem team, progress as an individual and racer, and help grow the sport of off-road motorcycle racing. Team rider benefits include custom race graphics, full set
